

## HIGH TECH

### Kuehne + Nagel delivers Speed & Accuracy to High-Tech Leaders

Aggressive competitors, shorter product lifecycles and decreasing margins require high-tech companies to minimize inventory investments, increase turns and drive efficiency throughout the supply chain. As a leader in global logistics management for the High-Tech industry in Mexico, Kuehne + Nagel has the expertise and distribution infrastructure to achieve that and beyond. Our experts serve some of the world's largest, most respected companies.

Operating as a strategic extension of your team, Kuehne + Nagel will help turn your supply chain into a competitive advantage by:

- Designing supply chain solutions
- Streamlining your import / export processes
- Postponing inventory acquisition through Vendor Managed Inventory (VMI) programs
- Reducing risks through loss preventions and security programs

High-Tech Leaders pursue integrated solutions including the following product capabilities:

- Air/Sea and Overland Transportation
- Finished Goods Distribution and Fulfillment
- Manufacturing and Supply Logistics
- Aftermarket and Service Parts Logistics
- Global Services Infrastructure for E2E Solutions
- Security Protocols through the entire supply chain

- Integrated IT Solutions:
  - Order Management
  - Forecast Management
  - Event Management
  - Integrated Transportation and Logistics Visibility
  - Track & Trace
- Customer Specific Supply Chain Design and Systems Development

#### ABOUT KUEHNE + NAGEL

With approximately 76,000 employees at some 1,300 locations in over 100 countries, the Kuehne + Nagel Group is one of the world's leading logistics companies. Its strong market position lies in the seafreight, airfreight, contract logistics and overland businesses, with a clear focus on high value-added segments such as IT-based integrated logistics solutions.

## OUR SERVICES

### Seafreight

We Offer what a classical shipping company offers, but without the limitations of owning a fleet. Our high cargo volume insuresecure favorable rates with many leading shipping lines and cost effective service for you, our business partner. Our shipment volumes, together with strong partnership with "Class A" carriers, give you access to multiple sailings per week for both raw materials and finished products transportation.

### Airfreight

Kuehne + Nagel offers a variety of service levels based on time and cost parameters. We fly your components or finished products using top carriers on the fastest available flights. We handle cargo recovery, customs clearance and delivery according to individual requirements. Our solutions include gateway programs to key markets areas to ensure uplift via blocked space and expedited and "next-flight out" services for time-sensitive cargo.

### Overland

Kuehne + Nagel Overland is your single source logistics solution for shipments between Canada, United States, Mexico and Central America. Ensuring consistency and reliability in our service, only quality "Class A" carriers are utilized, underscoring Kuehne + Nagel's commitment to providing the highest level of service available.

### Contract Logistics

We consistently provide high quality levels, scalability and moderate capital investments are further characteristics of Kuehne + Nagel's shared warehouse solutions:

- Spare parts hubs
- Co-Packing
- Repairs management
- Refurbish
- Data recovery

### Distribution

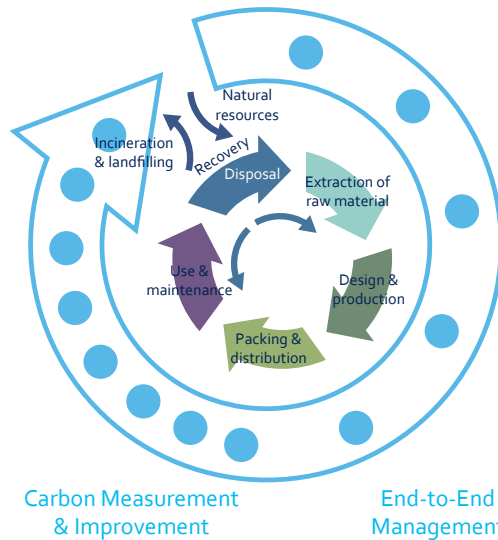

Kuehne + Nagel manages transportation from the point of origin to the point of consumption on a global basis. Our non-asset-based model assures the right solution is based on your needs, not ours. Strategic alliances with leading Mexican providers of overland transportation services enable Kuehne + Nagel to offer a singlesource overland transportation solution for small packages and lessthan-truckload shipments.

### KNSecureChain

Protecting the assets of our customers is our priority. Therefore we offer a fully customisable and high quality protective solution through a secured team and network, continous process control and improvement, full cargo monitoring, route analysis and design. All our efforts are focus on making certain your valuable goods reach their destination on time, safely in perfect condition.

## We also offer Logistics solutions to support the CIRCULAR ECONOMY

- Recycling Management
- Returns Data Wiping
- Spare Parts Harvesting
- Repairs Management
- Asset Dispositioning
- Asset Recovery
- Warranty Management
- National Return Network

- Forward Logistics Solutions
- Mode Conversion
- New Product Introduction
