

## PHARMA & HEALTH CARE

## Pharma & Health Care Committed to the Industry

Product fulfillment is more complex in a heavily regulated industry like Pharmaceuticals and Medical Devices, where millions in inventory investment could be jeopardized by careless product handling or compliance violations.

Kuehne + Nagel is the leading logistics partner in the pharmaceutical and healthcare industry in Mexico. In our years of experience we have had the privilege to serve clients in different sub sectors such as: Patented, Generics, OTC, Medical Devices, Biotechnology and Animal Health. Our solution includes processes for efficient inventory management and tight sanitary and governmental regulations compliance required by the industry.

By incorporating these best practices, we are able to reduce our customer's supply chain cost significantly; and more importantly our specialized services can help our clients leverage their supply chain to improve customer satisfaction in one of the world's most competitive industries.

**Requirements that other providers view as exceptions are our integral operating procedures, including:**

- Regulatory and GxP compliant- facilities and processes
- Expiration date control
- State-of-the-art Information Systems that offer unique inventory processing and flexible track & trace modules

- Temperature-controlled and Humidity-monitored storage areas, including chamber for 2° to 8° temperature degrees
- Product Returns and Disposal and Quarantine services
- Last Mile delivery service
- Reverse Logistic Service
- Design and management of high-security storage areas and transportation routes

## Compliant + Fast + Secure + Safe
